

## **Free Motion Quilting**

By  
Tia Curtis

Are you thinking about quilting your own quilts but just don't know where to begin? Or are you familiar with stitching in the ditch and are ready to try something new? Well, this class is for you! Tia Curtis, professional quilter and designer, will breakdown the mysteries of free motion quilting on your regular domestic sewing machine in a judgment free zone. You will see and try a collection of designs so you can tackle your next quilting project with confidence. You will leave the class with two quilted pieces suitable for making into small zipper bags or just referring back to when it comes time to quilt your next project.

### Supply List

- Sewing Machine that can lower its feed dogs
- Walking foot
- Free motion quilting foot (also named darning foot)
- Cotton thread of your choice
- Extra sewing machine needles
- 8 light colored solid Fat Quarters (can be as simple as just muslin)
- 4 Fat Quarters of cotton batting
- Pencil
- Sketch book
- 6 x 24 inch or 3 x 18 inch quilting ruler
- Quilting safety pins (I like the curved pins)
- Quilting gloves like "Machingers" are very helpful

\*You can make your Fat Quarter Quilt Sandwiches ahead of time by layering a Fat Quarter of Batting between two fabric Fat Quarters and securing the layers with about 4 safety pins. You will need **FOUR** Fat Quarter Sandwiches for this class.

Please feel free to email me with any questions prior to class. I love to talk about quilting!
